School Accountability Report Card

Reported Using Data from the 2016-17 School Year

Published During 2017-18

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Facility Conditions and Planned Improvements (Most Recent Year)

The staff of Silver Springs High School believes that a safe, attractive, and adequate school campus is essential to the success of the learning process. A diligent effort is made to ensure that all students feel comfortable in the environment we provide for them.

The Park Avenue Alternative Education Site encompasses Silver Springs High School, the Young Parents Project and the Early Head Start Infant/Toddler Program. The main building which houses Silver Springs High School is one of the most historic in the district, having been built in 1939, and housing the first high school in the district. Over the years additional buildings/portables have been added to campus to accommodate student growth. While the main building is fairly old, the campus is clean and the grounds are well maintained. Students take pride in keeping their campus clean and sightly.

In 2002 the Nevada Joint Union High School District passed a general obligation bond, which included \$1M in modernization projects for the Park Avenue campus. The majority of the bond construction projects at the Park Avenue site were centered around ADA improvements including improving gym accessibility, campus signage, ramping, toilet room renovations and adaptations for a new elevator. The projects were completed in 2006.

Annual school site inspections are completed by the district maintenance and operations staff. The last inspection found no facility problems which posed a threat to the health or safety of students or staff.

The District passed a \$47M facility's bond in late 2016. All projects will be prioritized through board approval and consultation with the bond over site committee in looking at the district modernization plan.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students Grades Three through Eight and Grade Eleven

Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	2015-16	2016-17	2015-16	2016-17	2015-16	2016-17
English Language Arts/Literacy (grades 3-8 and 11)	9	19	68	68	48	48
Mathematics (grades 3-8 and 11)		0	41	38	36	37

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

CAASPP Test Results in ELA by Student Group Grades Three through Eight and Grade Eleven (School Year 2016-17)

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded
All Students	67	60	89.55	18.64
Male	46	41	89.13	27.5
Female	21	19	90.48	0
Hispanic or Latino	--	--	--	--
White	61	57	93.44	19.64
Two or More Races	--	--	--	--
Socioeconomically Disadvantaged	51	45	88.24	17.78
English Learners	--	--	--	--
Students with Disabilities	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Mathematics by Student Group
Grades Three through Eight and Grade Eleven (School Year 2016-17)**

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded
All Students	68	60	88.24	0
Male	47	42	89.36	0
Female	21	18	85.71	0
Hispanic or Latino	--	--	--	--
White	62	57	91.94	0
Two or More Races	--	--	--	--
Socioeconomically Disadvantaged	52	45	86.54	0
English Learners	--	--	--	--
Students with Disabilities	--	--	--	--

Note: Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Science for All Students
Grades Five, Eight, and Ten**

Subject	Percent of Students Scoring at Proficient or Advanced					
	School		District		State	
	2014-15	2015-16	2014-15	2015-16	2014-15	2015-16
Science (grades 5, 8, and 10)	16	20	61	61	56	54

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

Career Technical Education Programs (School Year 2016-17)

School Safety Plan (School Year 2017-18)

Silver Springs High School in conjunction with the Nevada Joint Union High School District, the Grass Valley Police Department, and other local agencies have adopted a comprehensive school safety plan. This school safety plan is reviewed and revised annually if necessary. Key elements of the plan include warning signals to indicate to evacuate classrooms, evacuate the school, or proceed with a school lock-down. All staff receive training in each of the above scenarios.

In addition, each classroom is equipped with an Emergency Preparedness Guide and bag complete with instructions on how to treat potential emergencies and a map with evacuation plans. Date of last review/update: Fall 2015.

Professional Development (Most Recent Three Years)

Through our analysis of district STAR scores, we have determined that our primary focus for improvement of student achievement lies in reading. As a result, we have developed a district wide approach to improving literacy levels for all students. Students in the lower two levels – “Intensive” and “Strategic” receive specific instruction in reading during a single period each day. The district has purchased and is implementing READ 180, a state approved (K-8) reading intervention program at every site. Teachers of those classes receive training specific to the use of those materials from the vendors, Scholastic. In addition, all teachers are expected to incorporate literacy strategies into their daily lessons, regardless of their curriculum and subject area. Teachers are receiving ongoing training in order to accomplish this goal. That training may be in the form of individual assistance from one or more of our on site reading coaches at times convenient to the pair or group training session after school, on designated staff development days or during instructional days through a pull out process involving the use of substitute teachers. Professional development funding is used to extend opportunities for interested teachers.
