Re: Automatic External Defibrillators

The California Health and Safety Code requires annual notification to school staff that discusses the use of the Automatic External Defibrillators (AED's) and the location of the AED's in our district. If you are the staff for an on campus, school sponsored event that takes place outside of normal school operating hours (i.e. athletics, choir, dance) then you must insure that you have access to one of the campus AED's and that you are currently certified in CPR/First Aid/AED- please check with your site's Health Office for dates of CPR classes. If you are currently AED certified but would like further practice using the AED, then contact your site school nurse.

## **NJUHSD AED LOCATIONS**

### **Nevada Union High School:**
