IPM statement

It is the goal of Nevada Joint Union High School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*
 Focus on Long-term proactive pest prevention to assure safe conditions for all students and staff

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Kevin Atkins, Operations Manager NUHS	Manages all site IPM and maintenance/custodial & grounds staff
Paul Mont Eton, Operations Manager BRHS	Manages all site IPM and maintenance/custodial & grounds staff
Chuck Patterson, Site Maintenance SSHS	Manages all site IPM and maintenance/custodial & grounds staff

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
 Pest Control Business name(s): Economy Pest Control & Grass Valley Weed & Pest
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Respective Site O&M staff
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Site Operations Managers and Site Staff and results are communicated to the IPM Coordinator.
(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

NJUHSD Makes every effort to avoid the use of pesticides they are only to be used in emergencies and when non chemical means have been exhausted.
