The purpose of this survey is to obtain staff perceptions of student behavior and attitudes, school programs and policies, and the overall school climate as they relate to student well-being and learning.

**Your participation is voluntary. It is also very important.** The information you provide will help guide district and school efforts to promote safety, enhance learning supports, improve student achievement, and reduce health risks that stand as barriers to learning.

- **This is an anonymous survey.** It is designed so that participating staff cannot be identified from the data. You do not have to respond to any questions that you feel could be used to identify you. Simply skip any such questions.
- **All questions apply to this school only.**
- **The results are for the use of your district.** CDE and WestEd will preserve data confidentiality and refer any data requests to the district.
