2021-22 School Overview

Bear River High School is one of two comprehensive high schools in the Nevada Joint Union High School District. Opened in 1986, the Bear River community celebrated its 36th anniversary during the 2021-2022 school year. Bear River is located in the Sierra foothills between the Nevada County communities of Nevada City and Grass Valley and the Placer County community of Auburn, California. The campus, located on 44 acres, and is without question the hub for southwestern Nevada County. Given the multitude of athletic competitions, choral and band concerts, drama productions, and other extra-curricular activities, Bear River High School is pivotal to the community. As a means of accentuating the significance Bear River plays for all stakeholders, the school has forged a partnership with the Nevada County Library and functions as the branch's South County home. Additionally, Bear River High School allows the community access to its swimming pool, performing arts center and athletic fields and gymnasiums after school hours and during the summer months.

As is the case with most other comprehensive high schools within proximity, Bear River has experienced declining enrollment for several years. The geographical region we serve has functioned as a bedroom community, with many parents commuting forty miles to work in Sacramento and other outlying areas. With the economic downturn experienced throughout the country, especially during the pandemic of 2020 and in our county in particular, families have been forced to find employment out of the area or have chosen to move closer to their places of employment to alleviate the costs associated with commuting. That being said, the enrollment has stabilized to a degree and our enrollment this year is hovering around 545 students. In spite of declining enrollment and depleted funds from the state, we have made every effort to maintain the depth and breadth of our programs. Even though there are no available funds for GATE students, we continue to meet these students' needs by offering a significant number of honors and Advanced Placement classes. We also continue to provide a variety of visual and performing arts courses, including photography, clay, drawing, band, choral music, drama and dance. We are constantly working to build upon our CTE/STEM pathways and includes an A.P. Computer Science course, as a means of meeting the needs of 21st century careers. We also offer two CTE pathways, Computer Science and Digital Media Arts. During the 2018-2019 school year, we added another level within the Computer Science pathway, A.P. Computer Science A. Our Ag Science and Ag Mechanics pathways have also taken Bear River High School to new levels.

One of the most powerful cultural shifts at Bear River occurred with the development of our Core Values through an extension stakeholder process that heavily involved staff and all students. The Core Values have become fundamental to who we are and what we do as Bruins -- they are visible everywhere on campus and are embedded in classrooms, on athletic teams, and in our other clubs and organizations. The Core Values that define what it means to be a Bear River Bruin are: Grit, Empathy, Integrity,

Intellectual and Creative Curiosity, and Community. Below is additional description of each of our Core Values. These Core Values are practiced and taught by the staff at Bear River High School and the Badge of the Bruin Award, for students exhibiting the traits of the Core Values, are given to the students by staff members. Our Mission Statement: Bear River High School's mission is to provide students with a positive learning environment that provides a variety of opportunities to develop a solid educational background, while offering the tools to enable them to become productive and adaptable members of an evolving society. The vision for Bear River High School is as follows: Bear River is a supportive, rigorous, adaptive environment where all stakeholders strive to be lifelong learners who are productive, contributing members of the larger community.

A. Conditions of Learning

State Priority: Basic

•

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
 - Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <u>https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp</u>

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Bear River High School was completed in 1986. In 2002, we added a library/media center building, which also houses a satellite of the Nevada County Library serving our entire community. The voters approved a \$15 million bond for the district. Seven million dollars was designated to the construction of an aquatic center and a performing arts center. The pool and theater projects were completed in the fall of 2006. The main facility is over 30 years old; however, the McCrory Gym and weight room were added in 1989. Bear River has three maintenance employees on staff, one full time groundskeeper, and three custodians. They all work diligently to keep the campus in good repair, clean and attractive. Inspections are performed on an annual basis.

Our district has engaged in an extensive evaluation of all district facilities and completed a Facilities Improvement Plan in conjunction with stakeholder representatives, including parents, students, and staff members from each school site. This plan is used on an on-going basis to prioritize needs and ensure that facilities are well-maintained for years to come. Additionally, with the passage of Measure B (our \$47 million school bond measure), the district began construction on many of the facilities repairs and upgrades. Bear River has received a new video surveillance and intercom systems, replaced building roofs, an all-weather track, and new HVAC system in A-wing. The district has updated the HVAC systems to the MPR, Band & Choir, C, and B-Wing. The McCrory Gym floor was refinished and the Library flooring was carpeted. Additionally, projects for the D-wing - Ag. Mechanics Shop Modernization, HVAC, roofing, ADA path of travel, and interior classroom modernization; restroom ADA Improvements in buildings C/L, D & G, and minor restroom improvements in building E; new roofing for buildings B, D, & C/L, courtyard paving and path of travel from Building A and at front of school, and repair to the exterior envelope and water seal exterior of elevator & restroom building met with completion at the end of January of 2021.

At Bear River, our greatest facilities concerns have been with leaking underground water pipes, HVAC issues, and leaky roofs. The most recent renovations should ensure that our campus is safe for students, staff, and the community.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Bear River High School offers a sequence of courses in the following Career Technical Education (CTE) Pathways:

*Agricultural Mechanics *Agriscience *Film/Video Production *Graphic Design *Information Communication Technology (Computer Science) *Ornamental Horticulture *Stage Technology *Visual/Commercial Arts (Journalism, Yearbook, Literary Magazine)

Nevada Union High School District launched a district-wide pathway in Building Construction Trades (Residential and Commercial Construction) in 2020-21 with a transportation and feasibility for Bear River students to access these courses anticipated in the 2022-23 academic year.

Additional CTE Pathways are offered at Nevada Union High School in the following pathways:

*Agriculture Business *Cabinetry, Millwork, and Woodworking *Product Innovation (Manufacturing) *Food Service and Hospitality (Culinary) *Manufacturing and Forming Technologies *Production and Managerial Arts (TV Production/Broadcast) *Patient Care (Sports Medicine) *Systems Diagnostics, Service, and Repair (Automotive)

A program sequence has a minimum of two parts: a concentrator, with introductory to intermediate course content and a capstone with mastery level content; however, some of our pathways expand on this two-course sequence, with up to four courses supporting a student to mastery. A coherent sequence allows students to move through courses in an organized manner to facilitate student mastery of standards and provides opportunities to earn industry certifications and/or internships or work-based learning opportunities.

2020-21 capstone courses include Ag Mechanical Science III/IV, Advanced Agriscience III, CDE Environmental Horticulture Science, Technical Theater III, AP Computer Science, Video Production II, Online Multimedia II/Publication Design II, and Portfolio Development and Presentation. Digital Design and Ag Mechanics II are eligible for dual enrollment college credit through district articulation with Sierra Community College. All courses with the exception of our Agricultural Mechanics courses meet the "A-G" college entrance requirements in preparation for the UC/CSU system.

CTE courses are supported by the district and are integrated into the school's master schedule. With the new state standards and a focus on College and Career Readiness skills, these pathways are mutually supportive of both college readiness and career-bound students.

Nevada Joint Union High School District hosts an active CTE Advisory Committee. Members and related industries they represent are as follows:

*Mike Hauser - Advisory Chair, Automotive/Engineering & Design *Stephanie Ortiz - Advisory Vice-Chair, All Pathways *Aurora Thompson - NJUHSD CTE Director, All Pathways

*Jana Kolakowski, Agriculture
*Linda Melugin, All Pathways
*Eric Sweet, Agriculture
*Kathe Frazer, Hospitality
*Melissa Hannebrink, Information Communication Technology
*Mike DeCicco, Multimedia Production/Graphic Design
*Jeff Hansen, Building Construction Trades/Agriculture

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2020-21 California Physical Fitness Test Results

Due to the COVID-19 crisis, the Physical Fitness Test was suspended during the 2020-2021 school year and therefore no data are reported and each cell in this table is populated with "N/A."

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2021-22 Opportunities for Parental Involvement

Our parents and community members are extremely involved and committed to helping our students succeed at Bear River High School. We are fortunate to have several parent booster clubs that work year round helping support student activities. We have community members who volunteer as panelists for our Senior Project Mock Interviews and speeches and who speak in

2021-22 Opportunities for Parental Involvement

our classrooms as special guests. Again, given limited budgets, parents are instrumental in providing transportation for co and extra-curricular activities (such as athletic events, band and choir competitions, etc.). Additionally, we also have many parents, as well as other community members, who donate funds to support different activities and dedicate many, many hours planning and organizing our Senior Grad Night. Furthermore, we have parents participating on our Site Council. Our parents and community partners were instrumental in the passage of Measure B, our district's bond measure, which successfully met the required passage rate during the November 2016 election. This bond ensured \$47 million for upgrades in the facilities of our district's campuses; much of these funds have been spent at Bear River High School and Nevada Union High School, the two comprehensive high schools in the Nevada Joint Union High School District.

Our parents are also heavily involved in planning our activities each year, including our LCAP planning process and WASC planning. We have parents who serve each year on our district's LCAP Steering Committee, which includes a commitment of three full days during the spring. With our WASC accreditation process, our parents are highly engaged in helping us develop our new goals and action plans. We engage our parents with surveys, meetings at the school site, and dialogue with staff. The input we receive from our parents is extremely helpful as we plan for the future. We are fortunate to have an engaged community of families who are invested in the work that we do and supportive of our efforts.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2018-19	School 2020-21	District 2018-19	District 2020-21	State 2018-19	State 2020-21

Expulsions	0.62	0.00	0.61	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

2021-22 School Safety Plan

Bear River High School's Safety Plan is reviewed and revised on a yearly basis. Each March, our updated plan is put on file with the Nevada County Office of Education. The purpose of this plan is to identify and respond to incidents by outlining the responsibilities and duties of Bear River High School and its employees.

The District/School Safety Plan is developed in conjunction with Bear River High School. The plan is comprised of six key components: 1) An Emergency Preparation Manual, An Intruder Plan and Evacuation Location Assignments; 2) A description of Safe School Strategies and Programs, Procedures to Ensure a Safe and Orderly Environment, and Policies supporting Safe Ingress and Egress; 3) Suspension and Expulsion Policies, and Process for Notifying Teachers of Dangerous Pupils; 4) The BRHS Discipline Chart and the District Dress Code Policy; 5) Child Abuse Reporting Procedures; and 6) The District Sexual Harassment Policy.

This coming March, in conjunction with our site and district nurses, we will be including an entirely new section regarding pandemic (most specifically the current COVID-19) protocols.

With the help of our entire staff, our campus supervisor, and resource officer, we enforce the district-wide Zero Tolerance Policy. We continue to teach and train our staff emergency procedures, and we continue to have emergency drills which include participation from everyone on campus. These include fire drills, lock down drills and shelter in place drills, including our first responders.

We communicate with parents about emergency plans and procedures. Whether it is a drill or a real event, we communicate with parents via auto dialer and Facebook. We coordinate with local law enforcement, public safety or emergency management, public health, and mental health agencies and local government. Additionally, classroom and campus disaster kits were purchased, as well as, emergency evacuation chairs. Administration attends monthly CAUSSSS (Community Agencies Unified for Safe Schools and Safe Streets) meetings. Our attendance affords us the opportunity to collaborate with all significant agencies in the community, including the Sheriff's Office, Grass Valley Police Department, CPS, CHP, Nevada

2021-22 School Safety Plan

County Mental Health and administrators from all schools in Nevada County.

We work closely with a near-by church in order to coordinate our (potential) need to use the site for purposes of evacuation from Bear River and reunification with students' parents. We have updated our "to go" kits and have a plan in place for updating all information on a regular basis.

Our district funds allows us to host two significant safety-related programs for our students at Bear River during alternating school years.

With the passing of Measure B, Bear River High School has been able to install a security camera system that has enhanced our ability to ensure a safe campus. We have moved from using 12 cameras of questionable quality, to cameras that provide us with over 150 views of the campus. All constituents (staff, students, parents and community members) indicate the significant improvement they feel as a result of this surveillance.

As soon as distance learning has been lifted, Bear River High School, with help from the Nevada County Superintendent of Schools Office and the County Safety Coordinator, will train students in Teen CERT (Community Emergency Response Team). The Teen Community Emergency Response Team (CERT) program educates teen volunteers about disaster preparedness for the hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. Teen CERT offers a consistent, nationwide approach to volunteer training and organization that professional responders can rely on during disaster situations, allowing them to focus on more complex tasks. Again, our ability to train Teen CERT members is directly dependent upon when students are allowed to return to campus full time.

2018-19 Secondary Average Class Size and Class Size Distribution

This table displays the 2018-19 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

The NJUHSD professional development focus has been, and continues to be, a focus on Professional Learning Communities (PLC's). PLC's answer 4 essential questions: What do we want students to know and be able to do? How will we know when they learn it? How will we respond if some students don't learn? How will we extend the learning for those that are proficient? In terms of what we want students to know and be able to do, each teacher has identified essential learning outcomes (ELO's) for each of the sections they teach. These ELO's are specific common core state standards that PLC's have identified as essential for students to know and be able to do for success at the next level, whether in high school or post secondary education or career. To answer the question of how we will know when the students have learned the identified standards, PLC's have created common benchmark assessments aligned with their ELO's. Using the data from ELO aligned assessments, teachers can provide either targeted intervention during our flex time period or provide extension for students that have shown mastery on those essential standards. The extension would also take place during flex time. The NJUHSD has contracted with Maria Nielson, from Solution Tree, to provide the training in PLC's. This training is ongoing and will continue for the foreseeable future.

In addition to the district-wide professional development focus on Professional Learning Communities, each school site has its own needs in terms of professional growth. There are discretionary funds set aside for teachers to use to further their expertise in their subject areas. Teachers can attend conferences and trainings in these subject areas.

Lastly, the NJUHSD has partnered with NCSOS (Nevada County Superintendent of Schools) office on a grant to implement restorative practices and peer solutions to select schools in the district. The money from this grant finds training for staff in restorative practices as well as peer solutions. The grant also provides funding to train trainers to implement restorative practices on each campus selected.

Nevada Joint Union High School District 2020-21 Local Accountability Report Card (LARC) Addendum

Local Accountability Report Card (LARC) Addendum

2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
